### **DETAILED ACTION**

1. This office action is in response to application 10/803,944 filed on 03/19/2004. Claims 1-12 remain pending in the application. Claims 13-15 canceled by applicant and withdrawn from the further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected claims.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-12 (Group 1), drawn to a system for designing wiring board using logical connection information, classified in class 716, subclass 15.

II. Claims 13-15 (Group 2), drawn to a method for designing wiring board using actual sizes of parts of the wiring board, classified in class 716, subclass 8.

Inventions 1-12 (Group 1) and 13-15 (Group 2) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed, because Group 2 includes physical placement limitations. The subcombination has separate utility such as performing estimates of physical area placement.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Attorney John Mattingly (Registration No.30, 293) on 06/23/2006 a provisional election was made without traverse to prosecute the invention of group I, claims 1-12.

#### **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in telephone interviews with Attorney John Mattingly (Registration No.30, 293) on 06/23/2006 and 06/30/06.

4. The application has been amended as follows:

**Cancel claims 13-15.**

**5. Replace original Abstract with corrected version as follow:**

-- A wiring design system when applied to wiring boards having various wiring restrictions, has a rough wiring plan at the floor plan stage so as to complete a wiring design satisfying the wiring restrictions in a short period of time while evaluating the congestion degree of the wiring. Logical connection information for wiring parts and signal group information for handling the connection information is input as a signal group. The signal group is handled as a wiring unit for a wiring path search and the signal group is divided into smaller groups. An optimum path is then determined in such a way that the divided smaller groups run adjacent to one another whenever appropriate. --.

***Allowable Subject Matter***

6. Claims 1-12 are allowed over prior art of record.

7. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest or render obvious:

A design system for designing wiring for parts on a wiring board, comprising:

input means for inputting logical connection information on said parts for handling said connection information as a signal group;

wiring processing means for determining a wiring path for determining a wiring path for said parts by handing said signal group as a wiring unit for a wiring path search and dividing said signal group into smaller groups, and arranging said divided smaller groups such that they run adjacent to one another (without breaking off).

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
